Testing & DevOps: Playwright, Jest, unit/integration/E2E testing, Git, GitHub, Bitbucket, Docker, Nginx, Linux/CLI, Jira, Vercel, Netlify, Render

Web Quality: Technical SEO, accessibility, performance optimisation, GA4, GTM, Cookiebot

AI-Assisted Development: Codex, Claude Code

PROFESSIONAL EXPERIENCE

Full Stack Developer | J.R. Rix & Sons Limited | Dec 2023 - Present | United Kingdom

- Build and maintain production web applications, delivering customer-facing websites, account portals and internal business tools across modern JavaScript and server-rendered stacks.
- Develop **Node.js/Koa/Express.js** services and **REST APIs**, integrating **PostgreSQL**, headless **CMS** platforms, **third-party APIs** and business workflows.
- Deliver products spanning quotation workflows, inventory-driven platforms, marketing websites and **React Native** mobile features.
- Write **Playwright** end-to-end tests and **Jest** unit/integration tests; review changes, investigate defects and support reliable releases through Git-based workflows.
- Deploy and troubleshoot with **Docker**, **Nginx**, **Vercel**, **Netlify** and **Render**; improve performance, accessibility and **technical SEO**, and implement **GA4/GTM/Cookiebot**.
- Work in **Agile/Scrum** teams using Jira, contributing to sprint planning, retrospectives and cross-functional delivery.
- Integrate Codex and Claude Code into development workflows for codebase analysis, feature implementation, refactoring, debugging and documentation, with developer-led testing and validation.

Contracts and Licensing Specialist | TEI - TUSAŞ Engine Industries Inc. | 2018 - 2022 | Turkey

- Managed contract and licensing activities with international customers and suppliers in a regulated aerospace environment, supporting negotiations and stakeholder coordination.
- Created **VBA** and **Python automation** tools that reduced selected processing time by up to 90%; received awards for technical expertise, management appreciation and customer relations.
